A Country House.

And about 200 acres of Land, within
3 miles of Alexandria, will be sold by the
subscriber. The house was formerly oc-
cupied by himself, and is about one third
of a mile from his present dwelling. The
situation is high and remarkably healthy.
The house has 4 rooms, and a kitchen
and pantry, on the lower floor, and four
chambers with five places in the 2d sto-
ry. It was well built under the superin-
tendence of Mr. Lovering, a respectable
English architect, and would make a com-
fortable summer retreat for a genteel fa-
mily, or might be made a valuable Ta-
vern by opening a road through the land.
About one half of the land is in wood; the
residue is capable of being made hand-
some grounds. There is a good well and
pump in the yard; and there are several
good springs on the land.
The terms of payment will be one fifth
in four months; the residue in four equal
annual payments with interest; one half
secured by notes well endorsed, and the
whole by a deed of trust on the land.
Possession may be had immediately.

ALEXANDRIA
FRIDAY, OCTOBER 11.

Extract of a letter from a gentleman in Leghorn, to his friend in the city of Richmond, Virg. dated May 18, 1816.

"I have lately had a cast of the famous Venus de Medici made, and shall ship it by the first vessel for Baltimore. I intend to offer it to the City of Richmond and hope it may induce them to form a collection of such models, of the best statues, ancient and modern. They may be easily procured, and would, if placed in a house proper for their reception and preservation, certainly be a source of permanent gratification, if not of improvement to public taste. The expense, so far as it relates to the first cost of the casts, is so very inconsiderable that I would most cheerfully contribute several other pieces towards the establishment of such an institution, if it be likely to succeed, as also any aid in my power. The casts are by far the most perfect copies—the one I shall send will be a fair sample of their beauty, and that an estimate of the expense may be formed, a full and accurate statement of the cost and charges shall accompany it. I know there are many in Richmond, who would be glad to see the city possessed of such a repository of fine arts—and believe, when they find it attainable at a very moderate expense, that they will give it a small portion of the attention which is alone necessary to produce entire success."

HURRICANE IN THE WEST INDIES.

Capt. Reid, of the brig George, arrived here yesterday from Dundee, spoke on the 20th ult. a Danish brig, 14 days from St. Croix, the captain of which informed him, that there has been a violent hurricane in the West Indies, in which a great number of American vessels had been lost.

Charleston Courier.

TO PRESERVE CORN.

A respectable correspondent, whom we know to be one of the most practical farmers in Middlesex county, says, "Fields of Indian Corn, bitten by the frost, ought to be immediately stripped of the husks, to save the corn from rotting. The ears will now be found sealed up, and extremely wet; let the husks be cut with a knife lengthwise of the ear, and it will save much labor in stripping down the husks."

To the Citizens of Maryland.

Under the present awful visitation of providence, is it not the duty of every rational man to economize and provide for the worst? Flour is now from 10 to 11 dollars per barrel, and corn 16 to 2 cents per bushel. In vain will those who have to buy, defer it until the new crop comes into market—such has been the inclemency of the season that half crops of corn will not be made, generally, and in many places not a fourth; under such circumstances what is to become of the poor? I have enquired of a number of gentlemen from different parts of this, as well as the adjoining States, and find the accounts almost generally desperate, inasmuch that where some have a little to spare, others of their neighbors will want it. Under such gloomy and dreadful prospects, it might be hoped and reasonably presumed, that every person who values the necessities above the luxuries of life; and who has any idea of the probable scarcity of bread, would certainly decline distilling grain of any kind, until the prospects of life change for the better. If liquor must be had, there is an abundance of fruit and cider which may be distilled. After riding frequently through the country, making much enquiry and general observation, such as my idea of our present situation—God grant that I may be mistaken. But our present prospect of calamity is not of the ordinary or usual kind; heretofore, if one County or State failed in Crops, by drought or other disasters, they have generally been relieved by their neighbors, who had been favored with good seasons. It is not the case at present; the cold weather and drought have been general, I believe, through the whole country, and of course we have little to expect from abroad.

Should the different Editors of Newspapers have convenient room, and feel an interest in the welfare of their readers, I hope they will be so kind as to give these observations a place; they may possibly do some good; they can do no harm.

A FARMER.

"The first planting of corn, in many places, stood very bad, and even now seems to be a month later in ripening than usual; the severe frosts have already destroyed a great deal of fodder, and it is impossible that late corn can come to maturity. Perhaps this scourge is necessary to remind us of our great dependence on that All Merciful and Supreme Being, to whom we are so much indebted for past favors."

Washington City, Oct. 10.

The President of the United States, and his family arrived at the Seat of Government yesterday, in perfect health.

We have not yet sufficient information from New Orleans to enable us to judge

of the circumstances of aggravation or mitigation, attending the late attack reported to have been made by a Spanish force against an American vessel. By these circumstances its character must be determined to be premeditated or accidental. The aggression is not to be considered the act of the Spanish nation, unless that government chose to sustain it. As in the case of the Chesapeake, though at the most not so flagrant as that, the disavowal of the act by the Spanish government and proper reparation will atone for an injury, which, if unredressed, has always been considered as righteous cause for war.

CANDIDATES ELECTED.

Governor Clarke, Federal.

Congress, M'Lane Fed. Hall, Dem.

Some persons, at first sight, might suppose that Democracy is gaining ground in Delaware; but this is not the fact.

The Federal party, in the late contest, was divided for reasons known to the public. Consequently the Federal votes given were some hundreds less than here.

The division in the Federal party was a reason, and a very strong one, why the Democrats should make a vigorous effort to elect their candidates. Hence we may conclude, that not only all the Democrats went to the election that usually go, but that many others, who of late remained at home, were prevailed upon to go to the polls in consequence of the prospect of the success of their ticket, as the Federalists were divided. Notwithstanding, the Democrats did not give so many votes for their candidate for the office of governor, at the late election, by 251, as they did in 1813.

New York, Oct. 1.

MODERN REPUBLICANISM.

One John C. Spencer, a postmaster in Canandaigua, a thorough going democrat, and recently elected a Member of Congress, has published his refusal to comply with the requisition of a law of the U. S. which directs, that all persons holding appointments under them, shall inform the proper officer where they were born. A requisition which no man, it would seem would complain of who was not ashamed at the place of his nativity. This deputy post-master, in his letter to the P. M. General, says, "Congress has no right to require the information" demanded;—and declares, that Congress in exacting the law were lighting "a fire-brand of

discord between the native and naturalized citizens." So, Mr. S. is it there the shoe pinches?—are you afraid or ashamed that the people should know to what source it is they owe the interference of foreigners in their politics; and the rewards those intermeddlers have received? Have we not here a striking specimen of modern republicanism? This John C. Spencer arrogates to himself the privilege to judge of the Constitutionality of a law of the land—to pronounce upon its utility and expediency; and deeming it useless, inexpedient, and unconstitutional, he forthwith, resolves to disobey it—and sets its authority at defiance! But in this patent republicanism ignorant, that every man in the community has the same right to refuse obedience to every other law, which he—assuming to be the judge—may deem inexpedient or unconstitutional? How his Masters in Washington will relish this insubordination, remains to be seen; but his example has been contagious, and many persons holding offices who reside in this vicinity have resolved also to resist the laws, by refusing compliance with this requisition! So we go, Tony.

COMMERCIAL.

[Extract of Letters communicated for the Courier.]

"Malaga, July 28.—We have in this part of the world absolutely nothing to communicate worth your attention, either as regards the commercial or political situation of this country, except an almost complete stagnation of business. Rice is in some demand here, and this being a market of great consumption, we are led to believe our quotations will not be less than those we now give, the last sale of rice was at 85¢, on board, and it is expected that the cargo of the brig General Ripley, now in this port from Charleston, will bring as much. Wheat and corn are at present very low, but the demand will increase in September, & continue good during the winter. Good Virginia wheat will not be less than 2½ dollars per bushel, and it may be up to 3. Corn never was lower than at this moment, and we expect it will be up to 1½ shortly. Bees-Wax is always a good article, and will ever meet with ready sale here; but rice is the grand article that this market wants, the yearly consumption of it is 50,000 quintals: 1600 bushels wheat per day, besides corn, and about 16 or 20,000 barrels flour per annum. This is what was actually consumed the past year.

Prices current.—Rice, Carolina, 5½ dollars; flour, 8 and 8½; Levant wheat, 2½ a 3 1/4; American do, 2 1/4 a 2 1/2; corn, 1 1/4 a 1 1/2; tar, 4; pitch, 5; pipe staves, 115 a 120; bees-wax, 35 a 38.

NOVEMBER, October 7.

Arrived, schooner Ellen, Farrington, 15 days from Salem. Sept. 28, in passing the foot of Nantucket Shoal, spoke ship Alexander, from N. York bound to Portland, fifteen days out, reported no accident. 24th, experienced a violent gale from N. E. which lasted 16 hours, during which the schooner sprung a small leak. 23th, being 5 days out, Cape Henry bearing W. by S. distant 24 leagues, experienced another gale from N. E. which drove us into the Gulf; a ship, a brig and a schooner bore away in company. October 2, made the coast again, being off Cape Hatteras; saw a vessel ashore 50 miles to the northward of the Cape, apparently high and dry, with only one mast standing—4th, on the edge of the Gulf, picked up a boat with a white bottom and black sides, & the name of "Peter Mallat, Philadelphia," painted on the stern, (threw her overboard again two days after to clear the deck, on the appearance of a storm,) same day, saw a brig full of passengers, but did not come near enough to speak her; saw a number of other vessels to leeward standing in; last sight of them the following night.

SULLY FOR SALE.

THIS estate, situated in the county of Fairfax, twenty-two miles from Alexandria and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil, which was originally excellent, has for some years past had the advantage of improving husbandry. Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation; and those, now untilled, are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are all conveniently situated; those for farming purposes are expensive, and excellent in their kind.

For a gentleman of leisure this would be a delightful residence; and a profitable estate to an active farmer. The title is indisputable, and perfectly unincumbered.

A number of well taught orderly young men, with good stocks and farming utensils of all kinds, and the crops of the present year if desired, will be at the command of the purchaser.

Application may be made to the subscriber, living on the premises, next the post office at Pleasant Valley, in Fairfax.

**JAMES KENNEDY &
SON,**
BOOKSELLERS, KING STREET,
Have just received from LEE'S PA-
TENT MEDICINE STORE, No. 40,
Maiden Lane, N. York.
A FRESH SUPPLY
Of the following genuine Medicines.
**For the prevention and cure of Bi-
lious and Malignant Fevers, is
recommended**
Hahn's Anti-Bilious Pills.
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings, in several parts
of the West Indies, and the Southern &
Middle States, particularly in N. York,
Philadelphia, Baltimore, Petersburg,
Richmond, Norfolk, Edenton, Wilming-
ton, Charleston, and Savannah. The
testimony of a number of persons at each
of the above places can be adduced, who
have reason to believe, that a timely use
of this salutary remedy has, under Provi-
dence, preserved their lives, when in the
most alarming circumstances.
Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy, founded on
mere assertion.
It is not, indeed, presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience, for be-
lieving that a dose of these Pills, taken
once in every two weeks, during the
prevalence of our bilious fevers, will
prove an infallible preventative; and
further, that in the earlier stages of those
diseases, their use will very generally
succeed in restoring health, and frequen-
tly in cases esteemed desperate, and be-
yond the power of common remedies.
The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation, and of every age.
They are excellently adapted to carry
off superfluous bile & prevent its mor-
bid secretions—to restore & amend the
appetite—to produce a free perspiration
and thereby prevent colds which is so of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance—they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.
They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

**HAMILTON'S WORM DES-
TROYING LOZENGES.**
Which have cured an immense num-
ber of persons of both sexes, of every age,
and in every situation, of various dan-
gerous complaints arising from worms,
and from obstructions or foulness in the
stomach and bowels.
This medicine bears no analogy what-
ever to others of similar titles, so com-
monly complained of, as operating with
violence; on the contrary, a particular
excellence of this remedy is its being
suited to every age and constitution. It
contains nothing but what is perfectly in-
nocent, and is also mild in its operation,
cannot injure the most delicate pregnant
lady or the tenderest infant of a week old,
should no worms exist in the body; but
will, without pain or griping, cleanse the
stomach and bowels, of whatever is foul
or offensive, and thereby prevent the pro-
duction of worms, and many fatal disor-
ders. The lozenges are particularly
efficacious in carrying off all gross hu-
mours and eruptions, feverish and bilious
complaints, and are the safest and mild-
est purgative that can be used on any
occasion.

DESCRIPTION OF WORMS.
And the symptoms by which they are
known:
Worms which infest the human body,
are chiefly of four kinds, viz.—The Ter-
res, or large round worm; the Ascari-
des, or small round worm; the Cucurbi-
tina, or short, flat, white worm; and
lastly, the Tinea, or tape-worm, so cal-
led from its resemblance to tape. This
is often many yards long, and is full of
joints. It is most hurtful and most diffi-
cult to remove.
Among the symptoms attending worms
are—disagreeable breath, especially in
the morning; bad and corrupted gums;
itching in the nose, and about the seat;
convulsions, epileptic fits, and sometimes
privation of speech; starting and grind-
ing of the teeth in sleep; irregular appe-
tite, sometimes loathing food, and some-
times voracious; purging, with slimy &
fætid stools; vomiting; large and hard
belly; pains and sickness at the stom-
ach; slow fever, with small and ir-
regular pulse; a dry cough; excessive
thirst; sometimes pale and unhealthy
countenance, and sometimes the face
bloated and flushed.
Persons afflicted with any of the above
symptoms, should have immediate re-
course to Hamilton's Worm Destroying
Lozenges, which have been constantly
attended with success, in all complaints
similar to those above described.
A dose of this medicine given occa-
sionally during the warm season, will ef-
fectually prevent "the vomiting and
purging of children"—a dreadful disor-
der, which annually destroys thou-
sands of the infant part of our citizen-
ry it is likewise the mildest and most ef-
